Maximilian Hedman

CV

UX/UI Designer and Frontend Developer who knows that high-quality products are built by well-functioning teams. I combine strategic design thinking and clean code with the ability to take holistic responsibility. By establishing clear workflows and bridging the gap between design and development, I ensure we deliver both measurable results and high usability.

EDUCATION

2024 - 2026
CHAS ACADEMY

UX/UI DESIGNER + FRONTEND DEV

- **Design & UX:** UX Design, UI Design, Interaction Design, Graphic Design, Design System Architecture, Prototyping, WCAG.
- **Frontend & Tech:** Frontend Development, JavaScript, React, React Native, HTML, CSS, SASS, API, Firebase, Jest, Lighthouse.
- **Leadership & Methodology:** Design Lead, Team Leader, Requirements Management, Agile Methodologies, IT Tech & Operations.
- **Tools:** Figma, Visual Studio Code, GitHub, GitLab, Trello, Jira, YouTrack, Postman.
- **Internship:** LIA (Practical Training).

2022 - 2024
KYH

FRONTEND DEVELOPER

- **Frontend:** Frontend Development, JavaScript, TypeScript, React, HTML, CSS, SASS, JSON, Axios.
- **Backend & Databases:** Backend Development, Node.js, PHP, Laravel Sail, API, Postman, Firebase, MongoDB, NoSQL, MySQL, Apache2, Docker.
- **Design & UX:** User Experience (UX), UI Design.
- **Methodology & Tools:** Scrum, Agile Methodologies, Work Methodologies, Git, GitHub, Visual Studio Code, Figma.
- **Internship:** LIA (Practical Training).

WORK EXPERIENCE

NOV 2025 - APR 2026
ORGANAISE

DESIGN LEAD & TEAM LEADER (LIA)

- **Technical Leadership:** Acted as the bridge between design, developers, and the CEO. Defined design requirements based on the tech stack and created developer-oriented documentation for efficient dev-handoff.
- **Design System:** Primary owner of the design architecture. Created an informative and well-categorized Design System featuring a logical structure for the component library, responsive components, and interactive prototypes with advanced functionality.
- **Agile Project Management:** Led a team of 4 people. Established clear communication routines and streamlined the workflow via a custom-built Kanban structure directly in Figma.
- **Process Optimization:** Established “core hours” for synchronous collaboration and asynchronous deep work. Ensured project progress through continuous coaching and follow-up on team tasks.
